

**Why 3.5m x 2m sells well.**

According to ergonomic research, it is found that the field of vision of human eyes is a rectangle with a length-to-width ratio of 16:9, so the TV and monitor industries always design products according to this golden ratio.

3.5m x 2m LED display close to 16:9 Golden Aspect Ratio, it can perfectly copy the picture from the PC or monitor to the LED display, so as to achieve the best viewing effect. (If want bigger size close to 16:9, feel free to contact us. )

3m x 2m LED Display  
ratio compressed, picture distorted

3.5m x 2m LED Display  
close to 16:9 Golden Aspect Ratio

**Application (project in Prairieville, LA 70769)**
